-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 2 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### DETAILED ACTION

This application is in condition for allowance except for the following formal matters:

#### ***Claim Objections***

In claim 1, line 5, "and" should be -- at --.

Claims 4-16 are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim cannot depend from any other multiple dependent claim. See MPEP § 608.01(n).

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

#### ***Cited Art***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

WO 2003/064854 A1 is cited for showing a wind turbine rotor hub with a stiffening web 3 extending radially inwards from a flange area 2.

WO 2001/42647 A2 is cited for showing stiffening webs 33 located in the wind turbine rotor hub between flange areas (see FIG. 11).

***Reasons For Allowance***

The following is an examiner's statement of reasons for allowance:

All of the claims require the wind turbine rotor hub to have stiffening webs radially extending within a flange area of the hub surrounded by the flange to the center of the flange area, wherein at least two opening are provided with the flange area of the hub. But the WO 2003/064854 A1 reference only shows a stiffening web extending radially inwards from the flange area without extending to the center of the flange area of the hub to have at least two openings within the flange area. And in the examiner's opinion it would not have been obvious at the time the invention was made to a person having ordinary skill in the art to modify WO 2003/064854 A1 so that the stiffening web extends to the center of the flange area to provide at least two openings within the flange area since WO 2003/064854 A1 shows one opening located in the center of the stiffening web and flange area.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
